RE: U.S. Scrap Site ID # 05Z8  
Demand Letter

Dear Sir or Madam:

The United States Environmental Protection Agency (EPA) in cooperation with the Illinois Environmental Protection Agency has been conducting response actions to address contamination at the U.S. Scrap Site in Chicago, Illinois. EPA took these actions under authority of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. § 9601 *et seq.*, as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), Pub. L. 99-499 100 Stat. 1613 (1986). Prior to undertaking these response actions, EPA determined that there was a release or threatened release of hazardous substances from the U.S. Scrap Site. The EPA undertook the response actions using monies authorized by CERCLA, as amended.

During the response, EPA undertook several actions at the Site. They included the following:

- 1) Repair of security fence, as necessary, to deter public use.
- 2) Installation of sheet piling along the eastern and southern borders of the Site to minimize off-site migration of contaminated liquids.
- 3) Installation of interceptor trenches along the eastern and southern borders of the Site to collect liquids which pool at or near the surface.
- 4) Removal and disposal of liquids collected from the trenches which contain hazardous substances, including hazardous waste, as defined in 40 C.F.R. Part 261, and polychlorinated biphenyls (PCBs), as defined in 40 C.F.R. Part 761.

- 5) Conducting additional characterization and extent of contamination sampling and analysis, as needed, to determine the potential for off-site impacts from the wastes at the Site.
- 6) Removal and disposal of PCB, SVOC, metals and chlorinated-solvent contaminated soils which exceed regulatory levels for hazardous waste, as necessary.

Response costs associated with this Site have been incurred by EPA. The approximate EPA response costs identified up to February 28, 2011, for the above referenced Site are \$2,256,565.52. A summary is enclosed.

Information available to EPA indicates among other things that you are potentially responsible for the release, or threat of release, of hazardous substances from the Site. Pursuant to the provisions of Section 107(a) of CERCLA, and based on evidence currently available to the Agency, EPA believes that you may be liable for the payment of all costs incurred by EPA in connection with the Site. The potentially responsible parties (PRPs) are jointly and severally liable for the whole amount. Partial payments will not release the payor of liability for payment of the rest of the costs that are owed to EPA. Limiting language on the check or in accompanying letters will be considered to be advisory only and will not be considered as placing conditions on the amount paid or as limiting liability on other costs demanded in this letter.

Such payment must be made by a cashier's or certified check made payable to the "U.S. EPA Hazardous Substance Superfund", which is established by the Internal Revenue Code, 26 U.S.C. § 9507, and administered by EPA. Please send your check to U.S. EPA, Superfund Payments, Cincinnati Finance Center, P.O. Box 979076, St. Louis, Missouri, 63197-9000. Place the following Site Identification Number on the check: SSID 05Z8. Please send a copy of your payment check to William Messenger, Chief, Enforcement Services Section, U.S. EPA, Region 5, Superfund Division (SE-5J), 77 W. Jackson Blvd., Chicago, Illinois 60604, and to the Office of Regional Counsel, U.S. EPA, Region 5 (C-14J), 77 W. Jackson Blvd., Chicago, Illinois, 60604.

We hereby demand that you make restitution by payment of the amount in this letter expended by the Agency in connection with the Site pursuant to authority of CERCLA, as amended. Pursuant to Section 107(a) of CERCLA, as amended, interest shall begin accruing as of the date of this demand, if payment is not received within thirty (30) days of the date of this letter.

If you desire to discuss your liability with EPA, please contact Maria Gonzalez, Associate Regional Counsel, in writing no later than thirty (30) days after the date of this letter. Ms. Gonzalez may also be reached by phone at (312) 886-6630. If we do not receive a response from you within this time frame, EPA will assume that you have declined to reimburse the Fund for the Site expenditures, and pursuant to CERCLA, EPA may pursue civil litigation against you to recover all of its costs, with interest.

The names of other PRPs receiving this request for payment are enclosed with this letter to facilitate organization among the identified parties concerning payment. PRPs should attempt to

work out an allocation among themselves to apportion costs; however, whatever allocation system the PRPs develop among themselves, EPA considers all PRPs to this Site jointly and severally liable for the amounts demanded in this letter until all costs are reimbursed or an appropriate settlement is achieved pursuant to Section 122(h) of CERCLA.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Nachowicz".

Linda Nachowicz, Chief  
Emergency Response Branch 2
